## EXECUTIVE MANAGEMENT PROFILE

**Strategic & Tactical Planning / Project Management / P&L Responsibility  
Customer Relationship Management / Team Building & Leadership / Staff Development  
IT System Controls & Processes / Applications Development / Database Administration**

Results-driven senior executive with proven ability to gain cooperation and build consensus among diverse groups with conflicting business objectives. Nationally recognized as an IT expert within the healthcare industry.

## ACCOMPLISHMENT HIGHLIGHTS

- ◆ Negotiated a 10-year contract expansion and extension worth \$80 million, including desktop support, business recovery, voice and data network, application development, and system operations.
- ◆ Secured \$4 million project at Premier Health Systems by establishing and maintaining a strong relationship with the head of their executive team during projects at other locations.
- ◆ Met or exceeded all revenue and profitability targets set by Top Tier by controlling costs and expanding the scope of project contracts.
- ◆ Turned around poor customer satisfaction at two locations, raising the ratings from 4 of 10 to 10 of 10. Established an industry-leading position for that aspect of business operations by resolving technical problems and developing a positive relationship with the executive team.
- ◆ Maintain high employee morale and retention in a tight labor market by setting clear standards and providing assistance and encouragement to employees in meeting those standards.

## PROFESSIONAL EXPERIENCE

### **Top Tier Global Services:**

#### ***Project Executive / Chief Information Officer, Bridgewater Hospital, San Jose, CA, 2002-Present***

- ◆ Manage a full outsource contract for application development / maintenance, systems integration, and database administration, which includes voice and data network support, telephony, desktop and help desk management, and strategic planning.
- ◆ Provide executive leadership to many areas at the hospital, including the committee that prepares for JCAHO audits and the medical information systems committee. Viewed as an extension of the management team and consulted regarding requirements that may impact data flow in the hospital.
- ◆ Maintain P&L responsibility, budgeting, forecasting, monitoring, and reporting of finances for the \$80 million El Camino project and for the new Premier project.
- ◆ Address critical strategic and tactical planning issues, interacting with the information management committee and hospital administration to develop effective plans.
- ◆ Direct a staff of 40 Top Tier employees and contractors at the hospital. Hired Bridgewater employees and transitioned them to Top Tier by investing in significant retraining and skills upgrading.
- ◆ Oversee approximately 12 employees at the service delivery center in Arizona and 6 employees working on the Premier project in Colorado.
- ◆ Assist Marketing teams with accounts to be used for corporate references by advising them regarding critical content and structure of proposals.
- ◆ Prepare and submit operating reports periodically to senior Top Tier management.

***Project Executive, Premier Health Systems***, Denver, CO, 2005-Present

- ◆ Oversee on-site project manager and assist the organization in developing a strategic plan and building a data center.
- ◆ Provide expertise on computer operations, which includes developing processes and procedures.

***Project Executive, Health Care Ventures***, Santa Clara, CA, 2000-2002

- ◆ Managed daily operations for a joint venture between two major healthcare organizations, including finance / budgets, contract expansion, customer satisfaction, and strategy compatibility.
- ◆ Directed Top Tier-supplied services that included business applications, network, telephones, help desk, and strategic planning assistance.

***Manager, Application Development and Support***, Houston, TX, 1997-2000

- ◆ Managed the Production Services department, which involved installation, scheduling, and monitoring of all batch production programs to meet service level agreements.
- ◆ Led delivery of service to internal Top Tier groups as well as Central Mobile Communications and the World Access airline reservation system.

***Advisory Programmer / Project Leader***, Houston, TX, 1994-1997

- ◆ Led and performed systems analysis for all project phases, including audit readiness, business justification, design, tracking, project controls, and customer satisfaction.

**Previously held various technical positions within Top Tier, including application and systems programming, 1985-1994.**
